ATMOS

[at-muhos]

A gaseous (Father said energy) envelope, surrounding a heavenly body (Souls). A surrounding or pervading mood, environment, or influence:

Father said;

He will give a positive atmosphere to all those who come in contact with him

He will surround, protect and defend all souls

He will encourage and influence all souls to come to ME

He will be a positive force in this negative world

He will be a grand example of faith in Me

He will breathe life into "spiritually" dead souls

He will revive and restore souls who have been suffocated by this world
