

Spirit of Suicide

Gerry at first thought the spirit was a minor spirit but then came to realize that it was a major spirit, with powerful influence, the Spirit of Suicide. We at first thought suicide was a singular spirit that would convince one soul to kill themselves ... During Gerry's interaction with this spirit and Bianca, Bianca became physical with him. She started hitting him every time Gerry reached out to help her, trying to get her up and out of bed. Then the spirit wanted to negotiate with him and as Bianca's attitude changed and she became different. Gerry then knew she was under the control of the Spirit of suicide!

Gerry told Sandy to call 911 to get her to the ER for treatment. He received a call immediately from Bianca and told him I want to rest. She said "Why are you doing this to me? I just want to rest."

This spirit has tendrils that will leach on to all involved, ensnare and entangle them in the situation. The ones that love this individual negotiate with the one that is troubled. The spirit wants the loved ones to leave the individual alone. It is when they are alone that they take their life. The loved ones then are trapped in the circle that the spirit controls! They are taken over by this same spirit and may even take their own life for feeling guilty. This spirit of suicide makes them feel responsible for their loved one taking their life.

The spirits know their time is limited. As an example, when a bully is pushed, they fight harder. We as Guardians must realize we have the victory already won! Demons and spirits know who we are and what power we possess. Our weakness is our own doubt. That is the chink in our armor. The evil has a chance to affect our attitude. If we doubt and hesitate, they think they will win. We need to use our past experiences and fight. HIT them hard.

If we know their nature then we will always win, just like walking by a poisonous snake. If we know the rules on how to engage the snake, we can observe how the animal might react. The snake is not dangerous now.

If we know the spirit, then we know how to react. The rule Father established is, we are strong, and we will prevail because of the knowledge given to us by Father. Be always ready. Father has equipped His Guardians with all the rules. It is imperative to remember them and remember who we are.

Spirits have tendrils to ensnare all that it can. Those tendrils weaken us as they make us doubt our thoughts and actions. We then second guess our next step. We cannot let that happen. Do not let the spirits into your space. Rebuke them immediately and strengthen your resolve. Protect your space.

The loss of a loved one to this spirit will involve more than just the one under its control. Tendrils of evil can get into our space, even when we are protected. We cannot feel it because the energy is lower. These tendrils will drill down into our space and into our heart. If we fine tune our mind, then we can protect our space and feel the different energy. This is a must!

Gerry's thoughts included that this is a blessing to find this enemy! This spirit has taken so many. Father was gracious to allow this experience with his daughter and family. With Bianca being admitted to the psych ward, we have been given a chance to understand how to defeat and now defend against this spirit of suicide.

Typically, we are alone when we get into a trouble or in a situation that is not positive. We then blame Father or get angry. Alone is a vulnerable situation for anyone but worse for a Guardian as we are a bigger target. "Stay alert" and "discern the spirits" cannot just be terms we hear. Those words must be actions on our part. Use this information to "Gird your loins!" How many times have we read those

words in the bible or heard them during a service? Now we know what that means and how to use the subtle nature of evil to protect the Bride and serve Father even better.
